

EDGEmaster® 10-5/8" W-Valley

W-Valley is used in the roof valley area to channel water down into the gutters. This product features a small ridge in the middle to prevent run-off rain from running down one side of the roof and splashing up under shingles on the opposing side. Features hemmed edges for safe, easy installation. Available in a variety of sizes and colors.

Product Data and Ordering Information

Material: .0.015 min thickness, 26ga
